Hi Kim – We are about 1/3 of the way through the installation of the control wells and we expect to allow the trail to reopen by 11/15. This is consistent with what the signs on-site show.

The control well pads are mounds of gravel that elevate the well head above the 100-year flood elevation. A 4-ft diameter concrete pad will be constructed around each control well. These pads will be completed in the next few weeks, as the control well work is finished up. None of the control wells installed have that concrete pad yet.

Let me know if that helps or if more information is needed.

Eric

Hi Eric,

Can you estimate when the control well installation will be complete and approximately when the trail will reopen? (I see 9/27 on the schedule for actual start). Also – are the control pads that were installed flush cement pads? Haven't had a chance to get out to the site.

Would like to make sure I'm fairly accurate for the upcoming Basin Bulletin article.

Thanks much,

Kim

Subject: Bunker Hill - Weekly Status Meeting 10/10/17

All,

Please find attached meeting minutes from our call on 10/2/17, 90 day look ahead spreadsheet, latest approved full schedule, and our proposed agenda for our call on 10/10/17 below. Please let me know if you would like to add anything to the list or have any edits to last week's meeting minutes.

Agenda for 10/10/17

1. Schedule Review/Update
 - a. 90 Day Look Ahead Schedule Review
2. Review Meeting Minutes from 10/2/17
3. General Topics/Questions
 - a. Lime Slurry Tank Repair Progress
 - b. Fire Department Access Agreement
 - c. Subcontracting Industry Day
 - d. Williams Agreement
4. Submittals/Serial Letters
 - a. SBCW Risk of Installation Challenges
 - b. Pipe Spec Change
5. Review Action Items
6. RFI Update
7. Plant Operations Update
 - a. OMER Status

- 8. Changes
- 9. Payment Applications
- 10. Other Items

Thanks,
Eric
